

Sure Safety (Prepay) Mobile Service Specific Terms and Conditions

SURE FROM C&W – SURE SAFETY PREPAY SERVICE PRODUCT DESCRIPTION

The Sure Safety Prepay service (the **Service**) from Cable & Wireless Isle of Man Limited provides a mobile service when You are in the Isle of Man, the Channel Islands or roaming in a country with which We have a CAMEL roaming agreement, with all payments based on the advanced purchase and Activation of pay as you go call credit via electronic top-up (eTop up).

Details of the Sure Safety Prepay service are available on www.surecw.com/safety, including charges and a list of the countries where You can use Your handset. The Service enables You to make calls, send text messages and use data services using three of the UK networks (Vodafone, T-Mobile and Orange) wherever they have network coverage.

SECTION 1 – Service Specific Terms and Conditions

These Sure Service Specific Terms and Conditions should be read in conjunction with the C&W IOM General Terms and Conditions. Where there is conflict these Service Specific Terms and Conditions supersede the General Terms and Conditions.

1. Definition and Interpretation

The C&W General Terms and Conditions include definitions. These definitions are in addition:

“Acceptable Use Policy” refers to a separate C&W document showing the rules and etiquette governing Our customers in their use of the Internet, which can be viewed on Our website at www.surecw.com.

“ACCOLC” – In a major emergency, network operators may prioritise SIM's on their network and remove the ability of the Sure roaming SIM's to use the network space. The likelihood is that the emergency services will have a contract with one of the UK networks. This means that the Sure Safety Prepay SIM will find an alternative network to which it is allowed to connect. ACCOLC stands for Access Overload Control.

“Activation” means the process completed by You to add credit to Your prepay account via electronic top-up (eTop up).

“Authorised User” means any person whom You authorise to use the Service and that use will result in charges being made to You, and payable by You, for the use of the Service.

“CAMEL Roaming” means the ability to use Your handset in any country where We have signed a CAMEL roaming agreement with at least one operator. We may change the countries in which CAMEL Roaming is enabled at Our sole discretion. Information on CAMEL Roaming will be made available on Our web site at www.surecw.com/safety.

“Content” means data, information, software, photographs, video, graphics, music, sound and any other material appearing on or available through the provision of the Service to You including, without limitation, news, travel, sport and share price information supplied by Us or by other content providers from time to time and which is received by You through the use of the Service.

“Data Card” means an external GPRS or EDGE Modem manufactured by a third party supplier that, when used in conjunction with a laptop or similar compatible device, enables access to the Internet over GPRS or EDGE.

“EDGE” means Enhanced Data rates for Global Evolution. It is an enhancement to the GPRS network that provides data transmission up to 170 Kbps.

“e Top up” means the method of electronic top-up that is used by You to purchase use of the Service from Us in advance.

“GPRS” means the standard for wireless communications, which runs at speeds up to 115 kilobits per second known as General Packet Radio Service.

“GSM” means the digital mobile system known as Global System for Mobile Communications.

“Internet” means the global network that links millions of computers, using phone and cable links. This provides World-wide communications to homes, schools, businesses and governments. The WWW runs on the Internet.

“Laptop” means a portable personal computer or other access device that You may use to access Our GPRS/EDGE Telecommunications System.

“Mobile Email” means email collected and sent using Our GPRS network. Any mail server to which You subscribe can be accessed as long as it provides POP and SMTP access.

“Mobile Phone Equipment” means a handset and a SIM card when using GSM and other associated equipment.

Sure Safety (Prepay) Mobile Service Specific Terms and Conditions & SLA

"Multi-media Messaging Service" "MMS" means an alternative to SMS (Short Messaging Service) which extends text messaging to include longer text, graphics, photos, audio clips, video clips or any combination of such within certain size limits

"PIN" means the Personal Identity Number assigned to the SIM Card. When enabled, the PIN is required in order to connect to Our GPRS/EDGE Network using Your SIM Card. When disabled You can use Your SIM Card without entering a PIN. The PIN is disabled by default.

"Roaming" means the ability to use the services of another CAMEL enabled Telecommunications System with which We have a roaming agreement.

"Service Delivery Date" means the date on which We make Service ready for use.

"Shortcode SMS" means the method used by You to access the premium rate service of a third party content provider. "SIM Card" means the Subscriber Identity Module containing data (including Your identity), which has been supplied to You by Us.

"SMS" means the Short Message Service also commonly known as 'text messaging'.

"Strongest Signal Roaming (SSR)" means Your SIM card will roam on multiple networks and pick up the strongest signal when You switch Your handset on. If one network connection is lost the SIM card will pick up the next strongest available signal from another network at that time. SSR applies to the UK only although You can use Your handset in any country where We have a CAMEL roaming agreement with an operator.

"Sure" is a trading name of Cable & Wireless Isle of Man Limited.

"Sure Live Portal" means the portal provided by Us from which You may purchase JAVA games etc for which You will be charged directly by Us.
